

What is your biggest pain in Healthcare IT?

- Do you have an enterprise IT strategy to optimize your Technology ROI?
- Do you know how much you are paying for telecomm and data needs?
- Are you getting too many calls from EHR vendors trying to sell software?
- Are you not sure whether you can prove Meaningful Use?
- Do you know if your EHR is integrated with the infrastructure?
- Is it too much information to comprehend?

Welcome to

IPS Technology Services

Our **MISSION** is to be a **TRUSTED TECHNOLOGY ADVISOR** for Physician's Practices regarding all IT matters. Our **FOCUS** is on improving process efficiency and ROI for Technology dollars, selecting and implementing appropriate EHR and helping physicians get incentive dollars through proof of Meaningful Use. Our **GOAL** is to get outstanding referrals from our physicians and partners
